### Education

#### Frontend Web Development – Re:Coded

Sep 2022 – Jan 2023

Re:Coded Immersive bootcamps are highly competitive, with a 5% acceptance rate.

- Completing a 4.5-month immersive design bootcamp, with 300+ hours of curricula and project-based learning
- Technologies: HTML, CSS, JavaScript, React
- Working with various design teams to create products across industries.

#### Foundation of Computer Science – SE Factory

Nov 2021 – Feb 2022

- SE Factory is highly competitive, with a low acceptance rate.
- Using Python

#### Robotics – STC UNRWA

Feb 2022

- Technologies: Arduino IDE

#### NDG Linux Essential Professional Development – CISCO

Dec 2021

- Understand the linux operating system
- have demonstrated the ability to navigate a linux system
- Can execute the power of the linux command line.

#### NDG Linux Unhatched – CISCO

Nov 2021

- Expand skills and knowledge of linux.

#### BS – Communication and Computer Engineer – Lebanese International University (LIU)

2014–2018

### Technical Skills

HTML CSS JavaScript  
React Python Arduino IDE  
Java C++ Linux  
SQL PHP

### Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking
- TeamWork

### About Me

I'm a frontend web developer passionate about programming and creating websites. And my main interest is in frontend web developer role. Well-versed in programming languages, with a strong skill set in java script, HTML, React, CSS and a background in computer engineer. I am seeking a role which allows me to continue learning and perfecting my skills as I provide high-quality team work, and encourages me to flourish as a frontend web developer.

### Projects

#### Refubook Project – DEMO | CODE

7 weeks

Create website that provides information and resources for refugees coming to a new country and provide a platform for knowledge sharing.

- Technologies: React, JavaScript, HTML, firebase, Tailwind and CSS
- working in team of 5 remotely and managing a daily meeting in discord and divide our issues and assigned date to finish it.

#### Movie Project – DEMO | CODE

2 weeks

Movie database project, where it shows movies, their casts, ratings, trailers, related movies, genres, and so on.

- Technologies: fetch api and display the data using JavaScript, HTML, Tailwind and CSS.
- working in team of 4 remotely and managing a zoom meeting.

#### Mad libs Project – DEMO | CODE

1 week

Create a variant of a Mad Libs game with the story of our choice.

- Technologies: JavaScript, HTML, Tailwind and CSS.
- working in a team of 3 remotely and divide the tasks.

#### Portoflio – DEMO | CODE

1 week

- Technologies: HTML, Tailwind and CSS

#### Restaurant Project – DEMO | CODE

1 week

- Technologies: HTML, Tailwind and CSS.
- working in a team of 3 remotely and divide the tasks.

#### Scraping website Project – DEMO | CODE

3 days

Implement a python script that automatically scrape URL extract string with some condition and store them in BST and print it and check if it is balanced and complete.

- Technologies: Python
- Learning how to work in pressure to finish the project in 3 days only

# Languages

- Arabic    Native or bilingual proficiency.
- English    Professional working proficiency.

# Certificates

**Frontend Web Development – Re:Coded**  
Sep 2022 – Jan 2023

**Robotics –STC UNRWA**  
Feb 2022

**NDG Linux Essential Professional Development Certificate–CISCO**  
october 2021–Dec 2021

**NDG Linux Unhatched–CISCO**  
october 2021–Dec 2021

**BS–Communication and Computer Engineer –  
Lebanese International University (LIU).**  
2014–2018

**Hangman game Project– DEMO | CODE**  
3 days  

- Technologies: Python.

**Portotype Robot(Senior Project)**  
*1Feb 2018–May 2018*  
Building a prototype robot that can move in predefined directions and can be controlled .  

- Technologies: Arduino IDE.
- working in a team of 3 .
